EMPLOYMENT HISTORY

Credit Analyst – Risk Initiation, Standard Chartered Bank

Chennai

Mar 2022 — Present

- Conducted comprehensive credit risk assessments for African and UAE clients, ensuring adherence to regulatory compliance and risk policies.
- Developed and optimized risk assessment models using Excel, enhancing loan approval efficiency by 15%.
- Collaborated with cross-functional teams to streamline risk evaluation workflows, improving operational efficiency.
- Performed data analysis to identify patterns in financial data, contributing to more accurate risk assessments.

Analyst – Africa Lending team, Standard Chartered Bank

Chennai

- Prepared and reviewed loan documentation, coordinating with front-office teams to gather necessary information.
- Conducted secondary due diligence processes to evaluate client eligibility, ensuring compliance with internal policies.
- Proactively assessed and mitigated risks by identifying potential red flags and providing solutions to maintain regulatory standards.

LANGUAGES

Tamil: Read, Write, Speak

Hindi: Read, Write, Speak

English: Read, Write, Speak

Officer – India Business Loan Onboarding Team, Standard Chartered Bank

Chennai

- Collaborated with compliance and legal departments to ensure regulatory compliance during the on boarding process.
- Managed customer inquiries, providing timely resolutions to enhance the on boarding experience.

Reconciliation & Accounting, Logas Technologies

Mar 2021 — May 2021

- Reconciled financial transactions by matching entries from multiple data sources, identifying inconsistencies and reporting discrepancies for resolution.
- Utilized Excel to organize, clean, and analyze large datasets for monthly account reconciliation.
- Assisted in generating financial summaries and audit-ready documentation to support internal compliance.
- Gained exposure to accounting systems and financial data structures, building foundational knowledge for data analytics.

Bank Statement Reconciliation, Allosys Extrusion Pvt Ltd

Dec 2020 — Feb 2021

- Performed detailed analysis of historical bank statements to ensure alignment with financial records.
- Used Excel formulas and pivot tables to detect anomalies and trends in transactional data.
- Supported the finance team by preparing daily reconciliation reports and visualizing key discrepancies.
- Applied analytical thinking to identify inefficiencies in the reconciliation process and suggested minor workflow improvements.

PROJECTS

Digital Ledger for Police Post Logs

GitHub: github.com/BalaViknese/DigitalLedger_for_PolicePostLogs

- Developed a Streamlit-based web application to digitize police post logs, implementing CRUD operations and secure database handling.
- Utilized Python for backend development and integrated user authentication features to ensure data security.

COURSES
