About Me

I am a Data Science Analyst professional, with 4 years of experience, with skills in Advanced Excel, Python, SQL, Big Query, Google Cloud Platform, PowerBI and Machine Learning Algorithms. I am passionate about delivering solutions to business problems and want to thrive in career joining a dynamic organization with opportunities to learn and grow.

WORK EXPERIENCE

SATYA MICROCAPITAL

Data Analyst Delhi, IN

Mar 2024 – Present

- Developed first Acquisition Scorecard using Logistic Regression for the organization.
- Created Automated Mail System using Python for daily portfolio monitoring analysis report, used organization wide.
- Responsible for all the data requirements for the entire department, using sophisticated SQL Queries.
- Created trend analysis Dashboard for the Key Risk Indicators (KRI) for the organizations using PowerBi.

ROOPYA

Data Scientist Gurgaon, IN

Aug 2023 – Feb 2024

- Processed and combined 10+ datasets using Big Query for improved data accessibility and analysis.
- Deployed independently four machine learning models in Google Cloud Platform (GCP) using Vertex AI with a focus on achieving fast response time.
- Developed and implemented predictive models (PD, propensity, Application Scorecards, Behavioral Scorecards) for credit risk assessment.
- Conducted Rolling Window Analysis and Roll Rate Analysis to monitor and evaluate credit portfolio performance over time.

BYJU'S

Data Science Analyst

May 2021 – Jul 2022

- Applied Data Science Techniques: Leveraged statistical analysis, machine learning algorithms (e.g. Logistic Regression, XGBOOST, Decision Tree), and data visualization tools (PowerBI, SQL, Advanced Excel) to extract actionable insights from large and complex datasets.
- Enhanced Decision-Making: Provided data-driven recommendations to stakeholders, leading to increased user engagement, reduced churn.
- Mastered Data Analysis Tools: Proficient in Python, R, SQL, and popular data science libraries (e.g., Pandas, NumPy, Scikit-learn).

EDUCATION

Bengal Institute of Technology & Management, Santiniketan

Bachelor of Technology

BTech in Electronics and Communication Engineering CGPA: 7.3/10.0

WB, IN

July 2012 - Jul 2016

SKILLS

Technical Skills: Python, Advanced SQL, Machine Learning, Statistical Modelling, Data Visualization, Google Cloud Platform (GCP), Power BI, ETL, Git, Credit Risk Modeling, Big Query, Advanced Excel

Soft Skills: Effective communication, Team Collaboration, Presentation, Critical thinking

CERTIFICATION

- Full Stack Data Science, Alma-better 2023.
- Statistics, Alma-better 2023.

ACCOMPLISHMENT

- Increased sales 15% via targeted customer segmentation.
- Automated reporting, saving 30% manual effort.
- Improved decision-making with interactive dashboards.
- Enhanced data accuracy by implementing quality controls.
- Developed ML models for customer behavior prediction.
- Streamlined data pipelines, improving processing speed.
- Developed an application scorecard for loan approvals, reducing risk by X% and improving approval efficiency.
- Implemented a data-driven application scorecard in NBFC loan processing, leading to a 1.5 % decrease in default rates.
